

Editorial Board:

Zygmunt Bodnar — Chairman, Miron Gaj, Roman Ingarden, Bohdan Karczewski, Jan Matysiak, Maksymilian Pluta, Antoni Sojecki, Szczepan Szczeniowski, Bogusława Trzebiatowska

Editor in Chief — Miron Gaj

Secretary

Ewa Dobierzewska-Mozrzymas

Associate Editor — Ireneusz Wilk

Editorial Office

Instytut Fizyki Politechniki Wrocławskiej, Wrocław, Wybrzeże Wyspiańskiego 27, Poland

Publisher

Politechnika Wroclawska (Technical University) Wrocław, Wybrzeże Wyspiańskiego 27, Poland

In addition to larger original papers brief reports will be published of the authors' own research work. The reports should be set out according to the above guide lines.

The Editorial Board invites the readers to send over any remarks or observations referring to the publications which will appear in the *Optica Applicata*. The correspondence of essential importance will be published in a separate column dealing with letters to the Editor.

Contents

Seidel Aberrations of a Slightly Decentred Optical System -- Janina BARTKOWSKA, Zygmunt BARTKOWSKI	3
On a Semiautomatic Method of Aberrations Correction of Optical Systems—Tadeusz KRYSZCZYŃSKI	23
The Fifth-Order Fieldaberration Coefficients for the Spherical Surfaces — Miron GAJ	39
Two-Simplet Superachromatic Objective with Single Lens — Miron GAJ, Jerzy NOWAK	51
The Influence of Linear Glass Heterogeneity on the Optical Beam Pass through Porro Prisms Systems—Barbara LISOWSKA, Florian RATAJCZYK	55
The Optical Properties of Yttrium Iron Garnet Crystals in the Near Infrared—Kazimierz BRUDZEWSKI	59
